

Attention: Upcoming Construction

On April 21st, the next large scale water project will be starting in the Heights area. Payne & Dolan, our contractor, will be starting by removing pavement and curbing beginning at the intersection of Edison and Dickinson moving north to Fulton and continuing towards Marquette and ending at Westwood. There may be some inconvenience for travel but the roads should be open to get into each resident's drive way. Garbage days will not be impacted and will continue as normally scheduled. We ask that you not park on the road while construction is going on as it may cause issues for the contractors.

City employees will be contacting homeowners very soon as they will need to get access to each residence to plan route of new water line. Water service installation into each residence could start as soon as the first week in May.

If you have issues or concerns please call the City of Kingsford Dept. of Public Works at 906-774-3070 and leave a message with the Superintendent Jeff DeMuri.
