

Heights Water Project Update Posted: 9/18/2025

All the watermain has been completed for the Heights Water Project.

We have one last watermain tie-in on Cherry Street and Terrace Ave and four (4) more services to be hooked up.

Gravel has been placed on West Dickinson.

Concrete sidewalks, driveways and the last bit of curbing are scheduled to be completed next week, and the paving is likely to be completed in the middle of October.

Yard restoration has started this week.
